

The data below is as of December 31, 2019 or represents full-year 2019, unless otherwise noted, and is unaudited which should be considered when making investment decisions.

Rayonier supports the mission of the Sustainability Accounting Standards Board (SASB). We have considered the Forestry Management standard as applicable to our business, and have mapped our ESG disclosures utilizing this standard.

TOTAL TIMBERLAND ACREAGE: 2.6 MILLION^{1, 2}

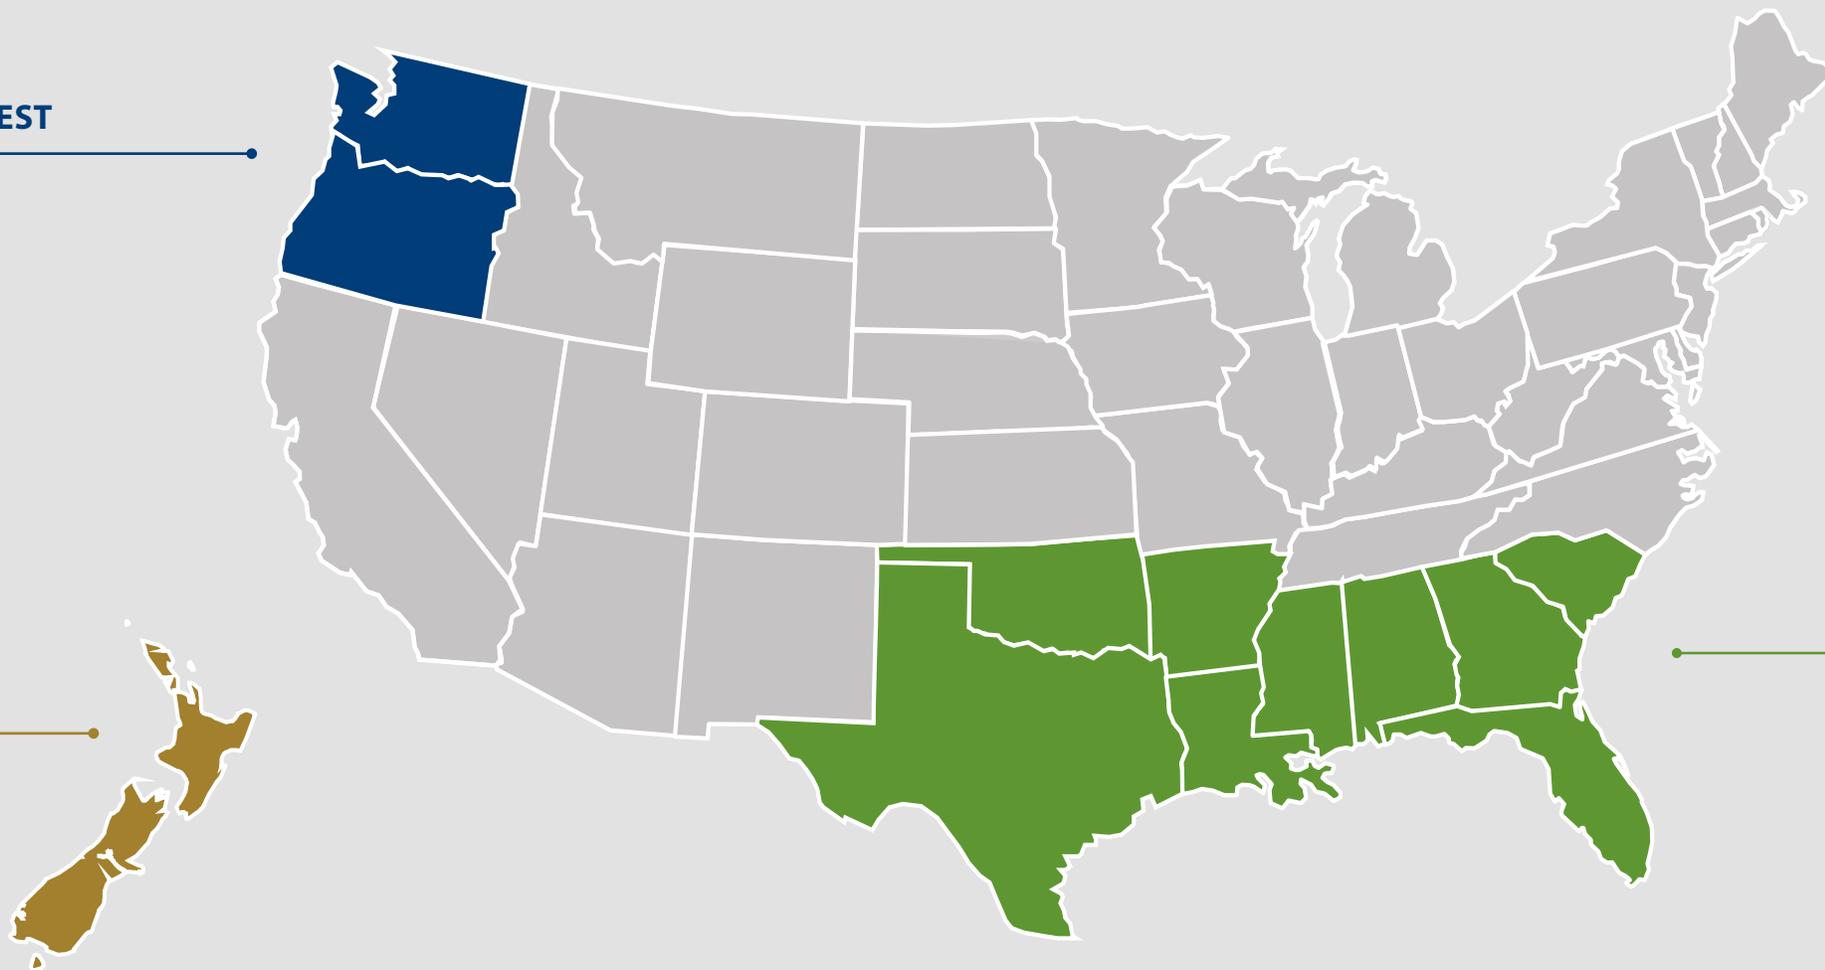

U.S. PACIFIC NORTHWEST

Oregon 61,000
Washington 318,000

379,000 ACRES

NEW ZEALAND

414,000 ACRES

U.S. SOUTH

Alabama 240,000	South Carolina 18,000
Arkansas 7,000	Louisiana 128,000
Florida 394,000	Oklahoma 92,000
Georgia 705,000	Texas 184,000
Mississippi 67,000	

1.8MM ACRES

	U.S. SOUTH	U.S. PACIFIC NORTHWEST	NEW ZEALAND	OVERALL
Total Merchantable Timber (thousand tons)^{1, 3, 4}	67,742	7,120	16,350	91,212
Harvested Volume (million tons)^{1, 5}	6.1	1.2	2.7	10.0
Sustainable Yield (million tons)^{1, 6}	5.9–6.3	1.9	2.4–2.7	10.2–10.9
Seedlings Planted	25,620,782	3,423,817	3,737,488	32,782,087
% of Acres Certified to 3rd Party Standard^{7, 8}	94% by SFI	94% by SFI	94% by FSC and PEFC	94%
% of Acres Leased for Recreation^{7, 9}	82%	92%	—	84%
% of Acres With Protected Conservation Status^{7, 10}	10%	18%	8%	11%

¹Disclosed in Rayonier's Annual Report on Form 10-K.

²Represents owned, leased and/or managed acres. SASB Code RR-FM-000.A.

³Information regarding merchantable timber inventory, including merchantable age, can be found on Rayonier's Form 10-K. SASB Code RR-FM-000.B.

⁴Timber inventory is generally measured and expressed in short green tons (SGT) in our U.S. Southern timberlands, in thousand board feet (MBF) or million board feet (MMBF) in our U.S. Pacific Northwest timberlands, and in cubic meters (m³) in our New Zealand timberlands. For the purpose of this report, all inventory is shown in SGT.

⁵Shown in SGT. SASB Code RR-FM-000.C.

⁶Sustainable yield is defined on Rayonier's Form 10-K. Rayonier subsequently updated its sustainable yield in 2020 for the U.S. South to reflect the Mississippi disposition and for the U.S. Pacific Northwest to reflect the Pope Resources, L.P. acquisition.

⁷Calculated using Rayonier owned, leased and/or managed acres.

⁸In the U.S., 2.1MM acres or 94% were certified by Sustainable Forestry Initiative® (SFI). In N.Z., 387,431 acres or 94% were certified by Forest Stewardship Council® (FSC) and 388,723 acres or 94% were certified by the Programme for the Endorsement of Forest Certification™ (PEFC). All non-certified acres are managed to the same certification standard. SASB Code RR-FM-160a.1.

⁹In the U.S., 1.9MM acres or 84% were leased to over 15,000 people within the local public for recreation.

¹⁰In the U.S., 254,368 acres or 12% were protected for conservation. In N.Z., 31,667 acres or 8% were protected for conservation. N.Z. category 1-3 Significant Ecological Areas (SEAs). SASB Code RR-FM-160a.2.
